

# HV 350 TIMBER/ALUMINIUM WINDOW WITH INTEGRATED BLINDS

## CHARACTERISTICS

**Thermal insulation** (in W/m²K)   $U_w$  as low as 0.60

**Sound reduction** (in dB)  up to 47

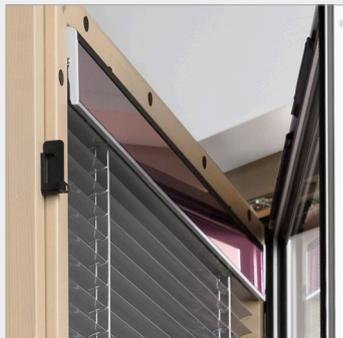

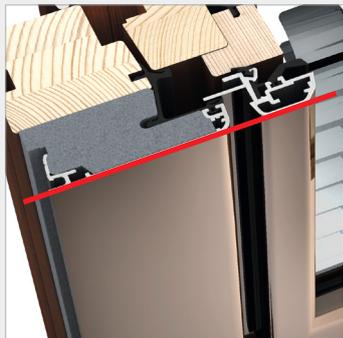

**Security**  up to RC2

**Locking**  concealed

**Construction depth** (in mm)  85

**I-tec Glazing**

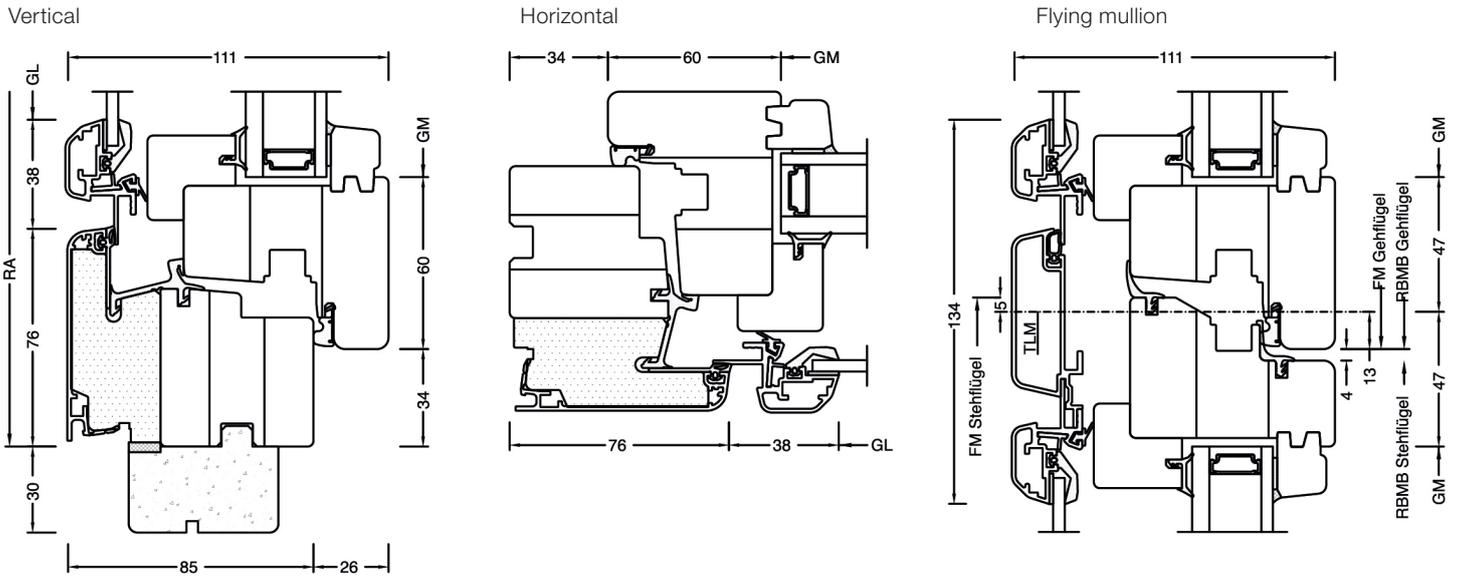

**I-tec Shading**

### HV 350

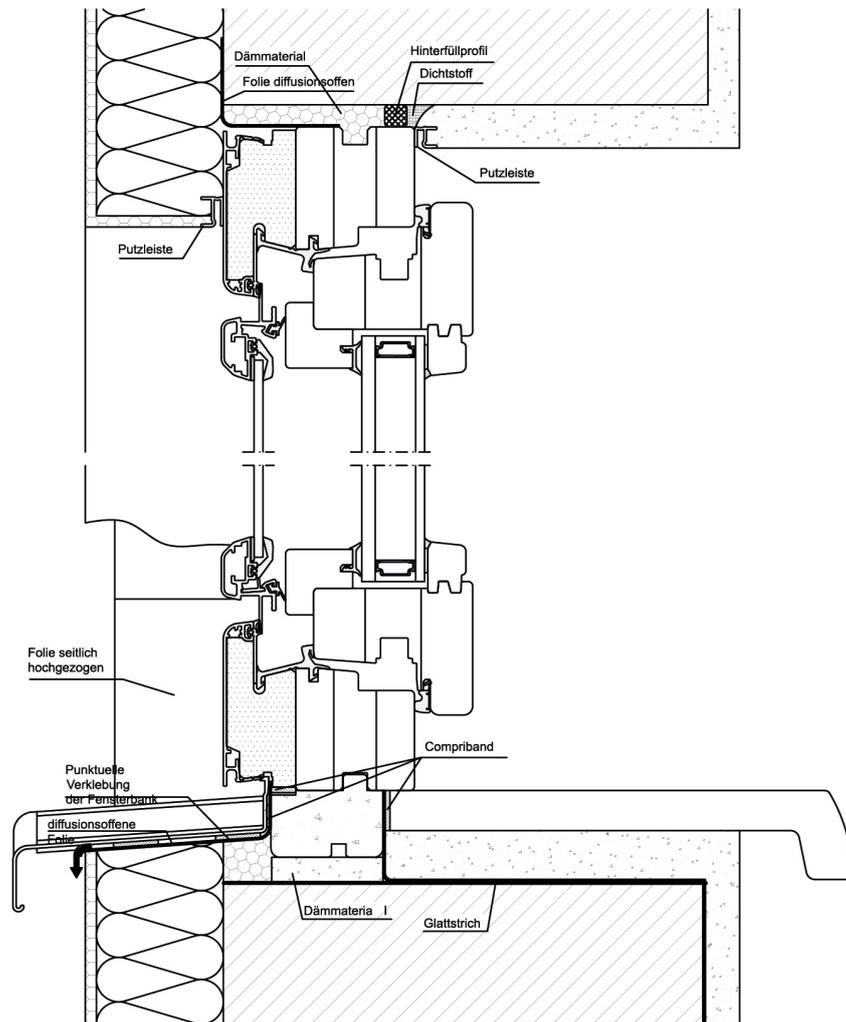

The sun and privacy protection integrates harmoniously into this flush window and offers quadruple protection all in one window with excellent thermal insulation and sound reduction values. Blinds, Venetian blinds or Duette® blinds are situated between the panes and therefore protected from dust. The energy self-sufficient I-tec shading does not require any external power source due to the photovoltaic module and batteries. Integrated automatic functions such as day/night recognition and intelligent heat protection can be activated simply via your tablet or Smartphone, I-tec Smart Window is also available.

**Sections**

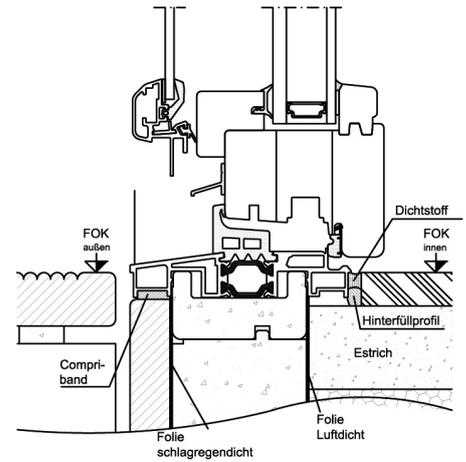

**Construction connections**

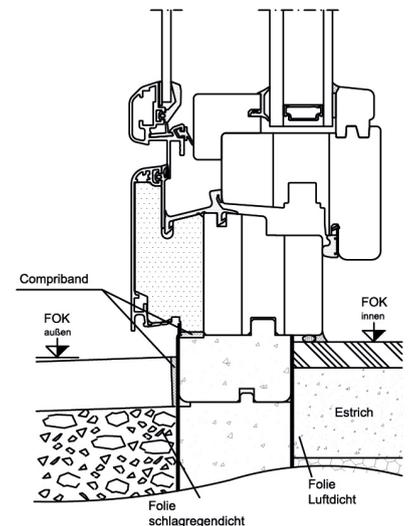

Putzanschluss innen und Vollwärmeschutz außen.  
 Unterer Anschluss mit Alu-Sohlbank.

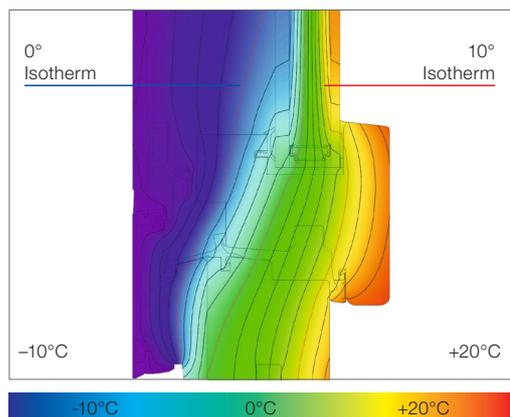

Bauanschluss mit Alu-Bodenschwelle 30mm.

Bauanschluss mit Purenitprofil unten

**ATTENTION!** Depicted drawing is symbolic only. Please observe national fitting guidelines such as ÖNORM B5320 in its respective valid version.

Optimal isotherm gradient to ensure low amounts of condensation

Due to the deep glass position, tremendous construction depth and the directly glued window panes glazing LIGHT ( $U_g = 0.5 \text{ W/m}^2\text{K}$ ) can achieve a sensational  $U_w$  value of  $0.68 \text{ W/m}^2\text{K}$  (with ISO spacer).

**Technical information**

- Insulated timber/thermal foam/aluminium window system with integrated sun and privacy protection fitted between the panes
- Inside: timber type spruce/larch, 3 glued layers, triple surface treatment in 11 standard colours, all RAL colours available
- Outside aluminium: anodised, RAL, highly weather-resistant structure, metallic and timber decor colours available
